AUG 2019 - MAY 2020

UNIVERSITY OF THE PACIFIC

COLLEGE OF THE PACIFIC

BACHELOR OF SCIENCE IN BIOLOGICAL SCIENCES

Coursework: Organic Chemistry, Physics, Chemistry, Biology, Biochemistry, Genetics, Anatomy and Physiology, Molecular Technology, Microbiology

STOCKTON, CA

AUG 2015 - MAY 2019

Experiences

MAYVIEW COMMUNITY HEALTH CENTER

MEDICAL SCRIBE

PALO ALTO, CA

SEP 2021 - PRESENT

Drawing from my previous collaborative experiences, I was able to integrate and adapt into the system of working with a team. Engaging with numerous patients also enabled me to empathize with their experiences. Moreover, my passion for research significantly contributed to assisting a doctor I worked with in solving a perplexing medical case.

DR. SERENA HU'S DENTAL OFFICE

DENTAL ASSISTANT

MountainView, CA

JUN 2017 - JUL 2021

While I was preparing for dental school, I had the chance to work with Dr. Serena Hu. As I assisted her and her dental team, not only was I able to learn the value of collaboration, but also the importance of empathy in understanding and addressing the patients' needs.

UNIVERSITY OF THE PACIFIC

Research Assistant

STOCKTON, CA

AUG 2017 - MAY 2019

During my time as an undergraduate researcher at UOP, I learned many valuable skills as a scientific researcher under my biochemistry professor.

We studied the relationship of GADD34 and CReP in the context of ER stress. I was tasked with analyzing scientific journals and conducting experiments alongside my professor to compile data for the end of the year presentation. In the last year, I took on a leadership role, guiding less experienced students in our lab.
